OKNOW 16.11 tells a lot about Jeff Bezos, the CEO and founder of amazon and brings the focus on demonetization of Indian currencies with its pros and cons. Check out some coolest + futuristic gadgets, a brief description on Python and how it can make you rich. This time we have brought more techno tricks to have good time with your PC. Know more about the biggest bug in LINUX history! Read more about computers with Genomics and AI!, DDOS Attacks and education. OKNOW is a monthly magazine published by Odisha Oracle Users Group (OOUG). OOUG is a non-profitable organization started by like-minded users who think such a community is required in India where the amount of Oracle user base is humongous. The idea of this group is to share what the Oracle users have learned from using Oracle technology over the years with fellow users who have similar interest. OOUG provides Oracle technology and database professionals and students the opportunity to enhance their productivity and influence the quality, usability, and support of Oracle technology. The OOUG is composed of Oracle professionals committed to helping fellow IT professionals develop solutions to their business challenges.
